## Chain hoist / Palan à Chaine

Opening style cover with curved edge. Easy for hand chain replacement and smooth operation.

Grade 80 load chain in accordance with EN818-7 standard.

Brake seat and driving shaft are connected by screw thread.

Overload protection

Gear cover

Roller bearing

## **SALIENT FEATURES:**

- 1. Capacity ranges from 0.5T to 50T.
- Automatic double pawl braking system. 2.
- 3. Double brake cover protection.
- Light weight robust construction, 4.
- Low effort to lift maximum load.
- 6. Extra thick asbestos free friction discs.
- 7. Fully forged hooks are fitted with safety latches as standard.
- 8. Galvanized hand chain as standard.
- 9. The hoist is fitted with high grade 80 alloy load chain.
- 10. Complies with EC Machinery Directive 2006/42/EC./EN 13157
